**ORDER**

On 15 March 2016, Eastern Samar Electric Cooperative, Inc. (ESAMELCO) and GNPowder Ltd. Co. (GNPower) filed their Application for approval of their Power Supply Agreement (PSA), as amended, with prayer for confidential treatment of information and issuance of provisional authority. The subject PSA was executed on 18 September 2015, with a contract term of one (1) year, starting on 26 December 2015 to 25 December 2016.

Relative to their prayer for provisional authority, applicants alleged the following:

32. All the foregoing allegations are re-pleaded by reference in support of their prayer for the issuance of Provisional Authority (PA) to implement the subject PSA, as amended;

**ERC CASE NO. 2016-023 RC**

ORDER/ 22 MAY 2017

PAGE 2 OF 8

33. ESAMELCO and GNPOWER pray for the issuance of a PA or interim relief prior to final decision pursuant to *Rule 14* of the *ERC Rules of Practice and Procedure xxx*;
34. Considering that a substantial amount of time is needed to evaluate the documents submitted to support the approval of herein Application, Applicants seek consideration of the Commission to approve the instant Application, immediately, albeit, provisionally;
35. Owing to the short term of the contract, which is only for a period of one (1) year, a PA is all the more imperative to allow the timely delivery of energy by GNPOWER to ESAMELCO, which is set to start on 26 December 2015 at 12:00 A.M.;
36. The Region 8 EC's, including ESAMELCO, after careful evaluation if they will defer the commencement of the delivery due to delayed filing, decided and required GNPower to commence its delivery immediately after its previous power supply agreement expired last 25 December 2015, this being the reasonable plan to mitigate the risks of WESM exposure, specially with the assumption that the 2015 occurrence of El Nino has an adverse impact on the supply of electricity and the WESM price, particularly during the summer season. ESAMELCO, Moreover, it was projected, as shown in the table below,<sup>1</sup> that the exposure to volatile market prices will cause significant increases in prudential guarantee payments which will constrain Region 8 ECs to avail of high interest-bearing loans in order to comply with PEMC requirement;

On 23 May 2016, pursuant to the Commission's power to provisionally approve PSAs as provided under Section 4(e), Rule 3 of the *Implementing Rules and Regulations of R.A. 9136, or the Electric Power Industry Reform Act of 2001* (EPIRA-IRR), the Commission issued an Order granting applicants provisional authority to implement their PSA, the dispositive portion of which reads:

**WHEREFORE**, the foregoing premises considered, Applicants Eastern Samar Electric Cooperative, Inc. (ESAMELCO) and GNPower Ltd. Co. (GNPower) are hereby **GRANTED PROVISIONAL AUTHORITY** to implement their Power Supply Agreement (PSA), subject to the following conditions:

1. The applicable rates shall be the GNPower's Contract Price/negotiated price of PhP4.9653/kWh or SLPGC's<sup>2</sup> Monthly Electricity Fees (generation rates), whichever is lower;
2. GNPower's Fixed O&M (FOM) and Energy Fee shall be adjusted by the indexation based on Schedule I of the PSA;
3. The final generation cost that can be recovered shall be determined by the Commission in its Decision in the instant application;
4. In the event that the final rate is higher than that provisionally granted, the resulting additional charges shall be collected by GNPower from ESAMELCO. On the other hand, if the final rate is lower than that provisionally granted, the amount corresponding to the reduction shall be refunded by GNPower to ESAMELCO;
5. To facilitate the final evaluation of this case, Applicants are directed to submit the following:

<sup>2</sup> ERC Case No. 2015-137 RC entitled "In the Matter of the Application for Approval of the Power Supply Agreement Between Visayan Electric Company, Inc. (VECO) and Southwest Luzon Power Generation Corporation, with Motions for Issuance of Provisional Authority and Confidential Treatment of Information"

- a. PSA between GNPowder and SLPGC, and their arrangement on the supply and billing of electricity;
  - b. Protocol on the Exchange of MW;
  - c. Breakdown of the initial Contract Price of PhP5.0481/kWh;
  - d. Breakdown of the reduced Contract Price of PhP4.9653/kWh;
  - e. Derivation of the Capital Recovery ( $LCR_{CUF}$ );
  - f. Derivation of the Fixed O&M ( $LFOM_{CUF}$ );
  - g. Explanation of the values reflected in the formula of Energy Charge (EF) particularly the values 0.2874, 1.5256, and 0.2375; and
  - h. Rationale for the use of Indonesian Coal Price Index (ICI).
6. Finally, the effectivity of Section 3.2, Article III of the PSA is deferred until such time that the Applicants have submitted details regarding applicable transaction and administrative charges for arranging Replacement Power as provided in the PSA.

**SO ORDERED.**

In interpreting the power of the Commission to grant provisional authority, the Supreme Court in the case of *Freedom from Debt Coalition vs. Energy Regulatory Commission*<sup>3</sup> explained that a provisional authority is effective for only twelve (12) months.

Inasmuch as the Commission has initiated the evaluation of the subject application taking into consideration all submissions made by the parties, prudence dictates that a meticulous review of applicants' PSA be made pursuant to the Commission's mandate under Section 23 of the EPIRA which is to ensure that distribution utilities supply electricity in the least cost manner to its captive market.

WHEREFORE, considering the fact that the one (1) year Power Supply Agreement is self-limiting and is already terminated, the provisional rate granted to applicants ESAMELCO and GNPowder in
