NOTICE OF PUBLIC HEARING

TO ALL INTERESTED PARTIES:

Notice is hereby given that on 16 March 2017, an *Application* dated 10 March 2017 was filed by applicant Nickel Asia Corporation (NAC) seeking the Commission's approval for its authority to develop, own and operate a dedicated point-to-point limited transmission facilities to connect the 11.22 MW diesel power plant to the Surigao del Norte Electric Cooperative, Inc.'s Looc Substation, with prayer for the issuance of provisional authority.

NAC alleged the following in its Application:

THE APPLICANT

1. Nickel Asia Corporation ("NAC") is a generation company duly authorized and existing under the laws of the Republic of the Philippines, with principal address at 28th Floor, NAC Tower, 32nd Street, Bonifacio Global City, Taguig City.

f.

Copies of NAC's Certificate of Incorporation and Certificate of Filing of Amended Articles of Incorporation issued by the Securities and Exchange Commission, Amended Articles of Incorporation, By-Laws and latest General Information Sheet are attached hereto as **Annexes "A" and series.**

2. Applicant may be served orders and other processes through the undersigned counsel.

NATURE OF THE APPLICATION

3. Pursuant to the Amended Distribution Services and Open Access Rules ("DSOAR"), this Application is hereby submitted to secure authority from this Honorable Commission for NAC to develop, own, and operate dedicated point-to-point limited facilities connecting its 11.22 MW bunker C-fired diesel power plant, located in Brgy. Quezon, Surigao City, Surigao del Norte to the 20 MVA Looc Substation of the Surigao del Norte Electric Cooperative, Inc. ("SURNECO").

STATEMENT OF THE FACTS

4. **Power Supply Agreement.** In order to help address its power supply needs, SURNECO entered into a Power Supply Agreement ("PSA") with NAC as supplemented by the Supplement to the Power Supply Agreement dated 25 January 2014 (collectively referred herein as "PSA").

5. The PSA is pending approval before this Honorable Commission in ERC Case No. 2014-033 RC entitled "*In the Matter of the Application for Approval of the Power Supply Agreement (PSA) between Surigao Del Norte Electric Cooperative, Incorporated (SURNECO) and Nickel Asia Corporation (NAC), with Prayer for Provisional Authority.*"

6. **Supply from NAC.** In order to supply power under the PSA, NAC has undertaken to construct, own, operate, manage and maintain a 11.22 MW bunker C-fired diesel power plant in Brgy. Quezon, Surigao City, Surigao del Norte (the "Power Station"). Further, NAC has also undertaken to develop, own, and operate dedicated point-to-point limited facilities connecting the Power Station to SURNECO's Looc Substation.

7. Under the DSOAR, a generation company may develop and own or operate dedicated point-to-point limited facilities provided, that such facilities are required only for the purpose of connecting to the distribution system, and are used solely by the generating facility, as may be authorized by this Honorable Commission.

8. Hence, this Application.

ABSTRACT OF THE PROJECT, THE CONNECTION
ASSETS AND RELATED INFORMATION

9. **The Connection Project.** As mentioned earlier, the Power Station shall be connected to SURNECO's Looc Substation through the connection assets developed, owned, and operated by NAC (the "Connection Project").

9.1. NAC approved the Connection Project, a copy of the Secretary's Certificate containing a board resolution approving the Connection Project is attached hereto as **Annex "B."**

9.2. The Connection Project is more particularly described in the Project Description and its supporting attachments, attached hereto as **Annex "C"** ("Project Description") **and series.**

9.3. The Connection Project is illustrated in a single line diagram, a copy of which is attached hereto as **Annex "D."**

9.4. **Necessity of the Project.** The Connection Project is essential to the delivery of power from the Power Station to SURNECO's distribution system in order to comply with the contractual obligations of NAC under its PSA with SURNECO.

10. **Technical Configuration.** The Connection Project consists of dedicated point-to-point limited facilities in the purview of the DSOAR. They are required only for the purpose of connecting to the distribution system, and are used solely by the generating facility. They are not intended to serve end-users or suppliers directly.

10.1. The Connection Project involves a 7.313-kilometer 69 kV transmission line and a connection asset structure. The said line will start from the Power Station site in Brgy. Quezon, Surigao City, Surigao del Norte, and which will connect to SURNECO's distribution system through SURNECO's Looc Substation, which will serve as the connection point.

10.2. The said line starts from the 15 MVA power plant transformer 69 kV gantry structure of the Power Station, traverses along the national highway, and terminates at the Looc Substation.

10.3. The transmission line uses 336.4 MCM ACSR conductors on 75-foot height steel poles, with the conductors arranged in a vertical configuration, spaced at 1.85 meter apart for Type A structures; and with 2.15 meter spacing between conductors for Type B structures.

The geographical view of the Connection Project is illustrated in various layouts, copies of which are attached hereto as **Annex "E"** and **series**.

10.4. Further, the connection asset structure is an eight-legged I-beam steel structure with two-levels of I-beam cross members. The said structure is where the disconnect switches, potential transformers, current transformers, surge arresters, insulators, revenue metering, and other electrical components for the transmission line protection are installed.

11. **Selection of Connection Configuration.** The Connection Project's configuration is in accord with the contractual obligation of NAC under the Power Supply Agreement ("PSA") with SURNECO connect the Power Station to SURNECO's distribution system. Accordingly, the output should be fed to the lines feeding SURNECO's main substations.

11.1. The Connection Project, taking into consideration the contractual obligations of NAC, is the most feasible option.

A more detailed explanation on the selection of the configuration of the Connection Project is attached hereto as **Annex "F."**

12. **Results of the Distribution Impact Study.** NAC has conducted a Distribution Impact Study ("DIS") to determine the technical feasibility of connecting the Power Station to the Loooc Substation.

12.1. The DIS report reveals that, upon evaluation of load flow assessment, fault level assessment, dynamic stability assessment, that the Connection Project is technically feasible.

A copy of the DIS report is attached hereto as **Annex "G."**

13. **Results of the System Impact Study.** The National Grid Corporation of the Philippines ("NGCP") has conducted a System Impact Study ("SIS") in relation to the Power Station.

13.1. The SIS report reveals that the connection of the Power Station is technically feasible. The SIS report further reveals that no major transmission system degradation can be directly attributed to the Power Station, and no transmission system reinforcement is needed to mitigate any adverse effects that the Connection Project may pose in the transmission system.

A copy of the SIS report is attached hereto as **Annex "H."**

14. **Results of the Facility Study.** A third-party Facility Study ("FS") was likewise secured for the actual construction and connection of the Power Station.

14.1. The FS describes the facilities required in order to secure the intended delivery of the generated capacities from the Power Station. It also discusses the system's protection, telecommunications, and metering. It likewise presents the technical data and specifications of the major equipment and materials to be used.

A copy of the FS is attached hereto as **Annex "I."**

15. **Gantt Chart Schedule.** The timeline for the implementation of the Connection Project is attached hereto as **Annex "J."**

16. **Environmental Compliance Certificate is not Required.** Under the Revised Guidelines for Coverage Screening and Standardized Requirements of the Philippine Environmental Impact Statement (EIS) System of the Department of Environment and Natural Resources, an Environmental Compliance Certificate ("ECC") is not required for power transmission line projects with ratings of less than or equal to 138 kV. Hence, the Connection Project is not covered by an ECC.

A copy of the relevant portion of said revised guidelines is attached hereto as **Annex "K."**

17. **Project Cost.** The total project cost of the Connection Project is PhP35,840,193.00

A detailed breakdown of the said project cost is attached hereto as **Annex "L."**

TECHNICAL AND FINANCIAL CAPABILITY OF NAC

18. As discussed below, NAC is fully equipped to own, operate and maintain the connection assets.

19. **Technical Capability.** NAC has a team of qualified, experienced and competent engineers to operate and maintain the Connection Project.

Copies of the summary of the curriculum vitae of the said engineers and other supporting documents are attached hereto as **Annexes "M" and series.**

20. **Financial Capability.** NAC is capable of financing the cost of the Connection Project, as indicated by its latest Audited Financial Statements.

A copy of NAC's latest Audited Financial Statements is attached hereto as **Annex "N."**

ALLEGATIONS IN SUPPORT OF
THE MOTION FOR PROVISIONAL AUTHORITY

21. As discussed earlier, the Connection Project will provide the much-needed power supply of electricity consumers of SURNECO.

22. It is of utmost urgency and necessity that the instant Application be approved. A provisional authority will be necessary for the operation of the Connection Project and the delivery of power to SURNECO's costumers.

23. Hence, Applicant NAC respectfully moves for the provisional approval of the instant Application pursuant to Rule 14 of the ERC Rules of Practice and Procedure.

A copy of a sworn statement supporting the said motion is attached hereto as **Annex "O."**

PRAYER

WHEREFORE, premises considered, Applicant NAC respectfully prays that this Honorable Commission:

1. immediately issue an Order provisionally approving the instant Application; and
2. after due hearing, render judgment approving the instant Application with finality.

Applicant NAC prays for other just and equitable relief under the premises.

The Commission has set the Application for determination of compliance with the jurisdictional requirements, expository presentation, Pre-trial Conference, and presentation of evidence on **4 June 2018 at two o'clock in the afternoon (2:00 P.M.), at the ERC Hearing Room, 15th Floor, Pacific Center Building, San Miguel Avenue, Pasig City.**

All persons who have an interest in the subject matter of the instant case may become a party by filing with the Commission a verified Petition to Intervene at least five (5) days prior to the initial hearing and subject to the requirements under Rule 9 of the 2006 Rules of Practice and Procedure, indicating therein the docket number and title of the case and stating the following:

- 1) The petitioner's name and address;
- 2) The nature of petitioner's interest in the subject matter of the proceeding and the way and manner in which such

interest is affected by the issues involved in the proceeding;
and

- 3) A statement of the relief desired.

All other persons who may want their views known to the Commission with respect to the subject matter of the case may file their Opposition or Comment thereon at any stage of the proceeding before Applicant rests its case, subject to the requirements under Rule 9 of the 2006 Rules of Practice and Procedure. No particular form of Opposition or Comment is required, but the document, letter, or writing should contain the following:

- 1) The name and address of such person;
- 2) A concise statement of the Opposition or Comment; and
- 3) The grounds relied upon.

All such persons who wish to have a copy of the Application may request from Applicant that it be furnished with the same, prior to the date of the initial hearing. Applicant is hereby directed to furnish all those making such request with copies of the Application and its attachments, subject to the reimbursement of reasonable photocopying costs. Any such person may likewise examine the Application and other pertinent records filed with the Commission during the standard office hours.

WITNESS, the Honorable Chairperson and CEO **AGNES VST DEVANADERA**, and the Honorable Commissioners **GLORIA VICTORIA C. YAP-TARUC**, **ALFREDO J. NON** and **GERONIMO D. STA. ANA**, Energy Regulatory Commission, this 21st day of March 2018 in Pasig City.

FOR AND BY AUTHORITY
OF THE COMMISSION:

JOSEFINA PATRICIA A. MAGPALE-ASIRIT
Oversight Commissioner for Legal
